

Quality Management Policy

Thai Optical Group Public Company Limited and the subsidiaries are committed to manufacturing quality spectacle lens products, in compliance with international industrial standards, and to fully meet customer expectations.

We strive for continuous improvement in our quality management and manufacturing efficiency, in order to maintain competitive costs and to fulfil future industry development needs. Furthermore, this enables us to ensure timely delivery, so as to achieve the highest degree of satisfaction from our customers.

We stand by our slogan:

‘We strive to execute right, first time, on time, every time.’

The above policy has been approved and put into effect on 4th January 2022
