Thai Optical Group Pcl

TOG successfully renews official certification of the latest Thai Labour Standard TLS8001:2020.

Thai Optical Group Public Company Limited (TOG) has successfully completed the renewal process of the Thai Labour Standard TLS8001:2020. The certificate was issued on 10th August 2021, by the Department of Labor Protection and Welfare, at the Ministry of Labor, Thailand.

The key changes under the 2020 version include not only implementing international guidelines, as per the International Labour Organization (ILO), and ensuring anti-modern-slavery compliance, but also require that the execution of good labour practices and social responsibility are proactively organized and monitored under the management system for continuous improvement and long-term sustainability.

Making necessary changes to our labour management system has been challenging, especially so while simultaneously and continually having to remain on track with updated COVID-19 health and safety measures, in a rapidly evolving situation, and ensuring everyone has access to COVID-19 vaccinations. We are extraordinarily grateful to all of our team members who have been collectively and diligently cooperating together to make this happen, in order to ensure our workplace is a safe and healthy environment for each and every employee.
